

# **HI-NOVATION**

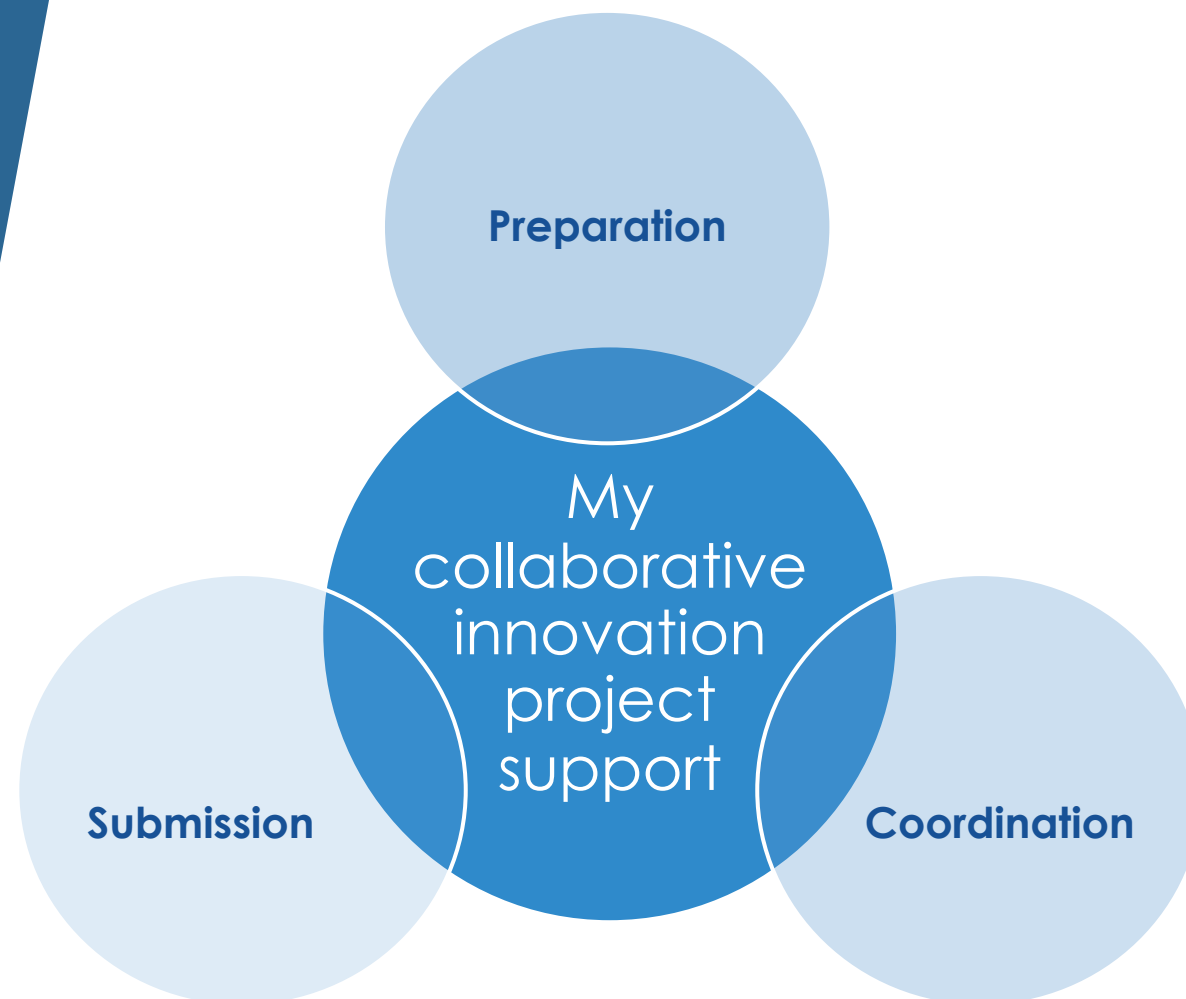

SUPPORTING  
COLLABORATIVE  
INNOVATION PROJECTS

2020

Do you want to  
bring your  
**technological break  
through** to life or  
test an innovative  
**business model**?

**Hi-NOVATION** is a collaborative  
**innovation project service** providing  
technical, financial, communication  
& dissemination support

## WHAT WE OFFER

### Excellent understanding of EU-funded projects

- Excellent knowledge of all technical, administrative and financial aspects related to the preparation and coordination
- Proven by management of projects funded by H2020, FP5, FP6, FP7, FCH JU (Fuel Cell and Hydrogen Joint Undertaking) etc.

### Brussels Headquarter

- Close in contact with the European Commission (DG Energy, DG RDT etc.), European Parliament, H2020, SWAFS, FCH JU, CORDIS, European Social fund, INEA/CEF etc.
- Fast & efficient problem solving through easy access
- Meeting facilities for consortium partner

### Multidisciplinary Expert Team

- Multidisciplinary team of qualified consultants consisting of engineers, economists and energy and mobility policy experts
- Expertise in hydrogen, fuel cells, renewable energies, sustainable mobility, energy storage, energy transition.

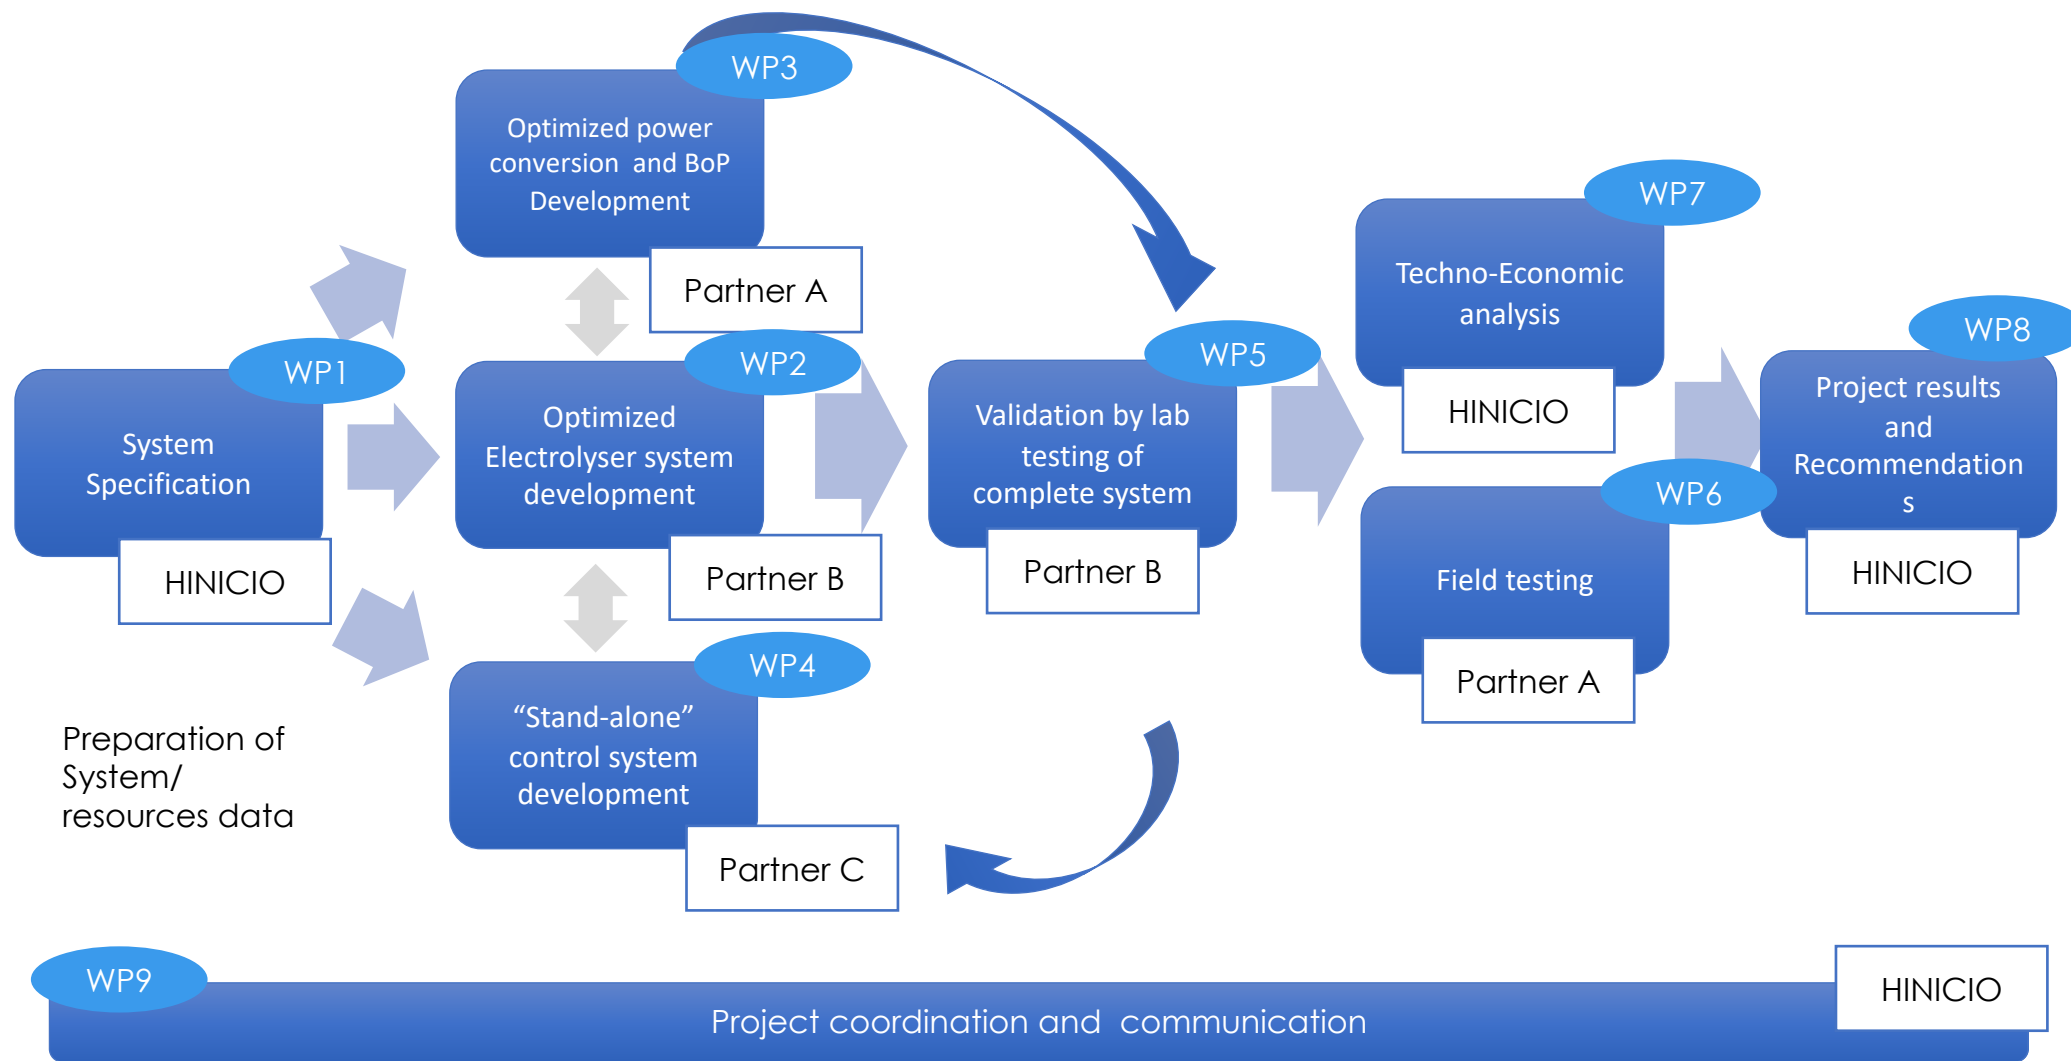

### Experienced Project Coordinators

- As project coordinators, we develop innovative business models and evaluate the techno-economic performance of the outcome.
- Additionally, we identify the changes needed in the regulatory and policy context.
